Determined gold miners from around the world seek their fortunes in the dangerous and gold-rich jungles of Ghana, Africa’s second largest gold producing country. With little money and everything on the line, rookie American gold miners George Wright and Scott Lomu beg and borrow anything they can to succeed after losing it all in the 2008 U.S. real estate crash. After securing $150,000 from an investor, the pressure is on from the very start to find gold to pay back this loan, as well as their other debts. Against stacked odds, the stakes have never been higher.

In the frontier town of Nome, Alaska, there’s gold rush on. As the ice pack melts during the summer months, this isolated port town of eccentrics and outcasts, booms with excitement, as pioneer dredgers rush to get out onto the water in custom built, barely seaworthy rigs. Because the precious metal isn’t found in the ground – it’s sitting on the bottom of the frigid, unpredictable Bering Sea.

Four Southern California sisters and their mother, Sarajane, head north to reopen two abandoned gold mines inherited from their grandfather. It is up to the girls to get the mines running before losing it forever. In order to claim what’s estimated at $1B of gold they’ll have to learn how to play in a man’s world, coming to terms not only with Alaska’s wilderness but with a quirky cast of locals they’ll need to rely upon for help.

Follow eight American speculators as they fight against the freezing elements, international miners and four short summer months to claim their stake at the top of the world.
SONS OF GUNS
SERIES 2- 4
37 X 60
Gunsmith Will Hayden, owner of creative gun works Red Jacket Firearms is back, and the guns are bigger and badder than ever. From AK 47s to exploding arrows and antique pistols, Hayden and his quirky Louisiana team build any and all one-of-a-kind, customised weapons. But the crew has to be careful: whether tackling the latest technology or modernising classic guns, each weapon is unique and equally dangerous.

DEADLIEST CATCH: BEST OF SERIES 1- 8
Discovery HD $8.99
The Deadliest Catch: Best of series features the dangers, adventure and disasters of Series 8. We follow the crew from the Bering Sea, season after season, posting their bodies and minds on the line to bring home the catch and earn the cash. The relentless back-breaking grind of hauling up crab is always coupled with the uncertainty faced between captains and crews. We look at the challenges faced by the crew, with on body camera shots, despite their rough seas, call and equal weather and the perils thrown against them by the ever changing seas. Series 3-8 available in HD.

DEADLIEST CATCH: BEST OF SERIES 1- 8
Discovery HD $8.99
Go behind the scenes to meet the men and women who film Deadliest Catch. The production team has only 36 hours to protect their gear from the elements and rig up eight crab boats before the captains cast off for the start of the season. Film crews undergo Coast Guard safety training, getting a taste of the bitter cold water in survival suit drills. As they head out to sea, production crews and fishermen are literally in the same boat, forced to live and work side by side in close quarters and harrowing conditions. Series 3-7 available in HD.

DEADLIEST CATCH: BEST OF SERIES 1- 8
Discovery HD $8.99
Rough waves and fierce weather make winter on the Bering Sea a difficult and dangerous place to do business, and for the fishermen who work these waters, risk to life and limb is just another part of the job. In order to help achieve this goal, the captains test their endurance as they repeatedly drop and haul the 700-pound crab pots with hopes of pulling in a richer catch. Series 3 brings a transition from the young greenhorns rise up against the well-experienced captains. Series 3-9 available in HD.

Returning in series 3 is the ever barefoot, Cody Lundin, a 20 plus year outdoor survival skills instructor, joined by newcomer Joseph Teti, a combat-tested special ops veteran and survivor of countless classified missions in Afghanistan and Iraq. Together, they are dropped into the planet’s most unforgiving terrain to demonstrate how to survive. Chile’s Atacama desert, the Ecuadorian rainforest, the South African Bush – together they could be the most formidable survival team on Earth – if only they could agree on a strategy.

For four generations the Kilcher family has lived off the land – and off the grid – at their 600-acre homestead in Homer, Alaska. After one of the harshest Alaskan winters on record, the Kilchers find their supplies running dangerously low. As precious spring and summer days return to the village, it’s a race against the clock to gather enough food, fuel and resources to survive another winter.

Ever since he was a teenager, Geordie Stewart has been fired by a hugely ambitious desire – to climb the highest mountains on each of the world’s seven continents. The Ultimate Climb features exclusive breath-taking footage that Geordie shot on his epic quest as he tries to complete his dream by climbing the highest and most famous mountain in the world – Everest. If he can achieve this goal, Geordie will set a new record, becoming the youngest Briton ever to climb all seven summits.

Endurance athlete James Cracknell fulfills a lifelong dream as he follows in the footsteps of the greatest adventurers of our time. Cracknell takes on four of the world’s most epic journeys: Livingstone, Fawcett, the Gold Rush pioneers and the crew of the Dundonald. He attempts to survive as his predecessors did using only the equipment that was available to them, as well as solve some of the mysteries of these iconic journeys. From the heart of Africa to the deepest Amazon jungle, James Cracknell achieves greatness in the face of overwhelming odds.
Stonehenge is one of the most iconic monuments in the world. Older than the pyramids, these stone circles were erected in 3000 BC to celebrate the winter solstice. After thousands of years, the mystery of the stone circle remains.

SEX IN AMERICA

The University of Indiana recently conducted the most thorough census into the intimate life of Americans since Kinsey’s groundbreaking report in the 1960s. Now, the Kinsey Institute will release new and unpublished data that explores what Americans are really up to in bed and with whom.

X-RAY YELLOWSTONE

From predicting a volcanic eruption to why wolves are decimating the elk population, Yellowstone researchers have many burning questions. New imaging technologies and live unfolding events allow scientists to explore the wonders of Yellowstone National Park.

VOLCANO TIME BOMB

Millions of people live in the shadow of active volcanos. They are constantly at risk from these deadly giants. From Mount Etna in Italy to the Yellowstone, super-volcanos in the US, scientists are attempting to predict when a deadly volcanic eruption will occur.

THE SUN

Every living creature on Earth depends on the sun for its energy. Our very existence relies on the sun’s unique size, temperature and location. The sun’s ability to unleash “super-storms” that could easily strip the entire world of electricity is of utmost importance.

STONENGE

Stonehenge is one of the most iconic monuments in the world. Older than the pyramids, these stone circles were erected in 3000 BC to celebrate the winter solstice. After thousands of years, the mystery of the stone circle remains. How did the inhabitants here move the massive stones from across the solstice and sea to the ancient stone circle?
SCANNING THE SKIES: THE DISCOVERY CHANNEL TELESCOPE

This special focuses on the construction and science behind the state-of-the-art telescope built by Discovery Networks. After a decade of construction, the telescope will amaze and fascinate with each new insight, uncovering the mysteries of what’s beyond Neptune in our solar system, the Milky Way, small galaxies and other celestial objects. With its ground-breaking ease and speed to quickly navigate different parts of our solar system, the telescope represents a new dawn for science education and new ways to learn about our universe – what will they find?
HOW WE INVENTED THE WORLD

Discover like never before the four inventions that define the modern world – cell phones, cars, planes and skyscrapers – as we celebrate the people that made them possible. It is nearly impossible to imagine life without these inventions, yet each was reliant on a sequence of extraordinary innovations and random connections. Viewers learn just how these iconic inventions came to be and how they have redefined our lives today.

AMERICA’S MOST SECRET: STRUCTURES

This special investigates America’s top five most classified sites and explores their secret activities. Throughout the United States, the Government’s most sensitive divisions are housed in remote locations so sensitive and so covert, that they will deny their very existence.

MACHINES OF GLORY

In each episode of this competition series, three crews of the highest-skilled machine operators battle it out to determine who emerges as king and queen of the construction job site. Tested in three areas of ability – speed, skill and power – the crews compete while operating massive machines including powerful excavators, speedy backhoes and agile skid steers, to prove that they have what it takes to win a cash prize and most importantly, the glory.

THE BIG BRAIN THEORY

A new elimination competition series for the biggest brains on the planet! Ten of the world’s top engineers go head-to-head to remain in the game but along the way, they may also invent the next life-changing military weapons or renewable resource-run machinery. Each week a different challenge and set panel of judges, including guest judge Buzz Aldrin, will dismiss one innovative contestant until only the top engineer remains.

38 X 60
Academy Award®-winning actor, Hollywood legend and space enthusiast Morgan Freeman hosts and narrates this exploration of the greatest mysteries of the universe. Morgan considers new, exciting ideas about mysteries that mankind has struggled with for thousands of years. What happened before the beginning? What are we really made of? How did we get here? We’re exploring how new branches of science – astrobiology, string theory, quantum mechanics and astrophysics – are pushing the boundaries of how we understand the universe and our place in it.

THE PRESIDENTS’ GATEKEEPERS
2 X 120
This landmark documentary television event reveals the untold stories of the White House chiefs of staff, the men who know the secrets of each presidency better than the presidents themselves. Featuring every living former chief of staff and president, producer and Pulitzer Prize-winning White House photographer, David Hume Kennerly, lends his extraordinary body of work to tell the insider’s history of the White House.

Mike Brewer is famous for spotting a motoring bargain and turning a profit, and in this brand new series he shows exactly how it’s done. A succession of real deals across the world’s car markets will see Mike turning $3,000 into $30,000... enough for a very desirable used Porsche 911. From Mumbai to Mexico to Japan, Mike is on a mission.

**GOLD RUSH**

**SERIES 1-3**

53 X 60

A group of down-on-their-luck men, in the face of an economic meltdown, risk everything to strike it rich mining for gold in Alaska. But right as things finally start to go their way, unforeseen circumstances threaten to jeopardise their dream of striking it rich in the frozen north. In Series 3, the Hoffman crew push ahead to make the most of the short mining season and fulfill the goal of mining ten times more than they did last year. Todd Hoffman doubles the crew, land and equipment to dig the Glory Hole which is believed to hide millions in unclaimed gold. Will they hit the mother lode? *Includes 12 one-hour specials featuring personal interviews, pre-show and post-show drama and a behind the scenes glimpse at production in deadly Alaska.

**BERING SEA GOLD**

**SERIES 1-2**

20 X 60

In the frontier town of Nome, Alaska, there’s a gold rush. As the ice pack melts during the summer months, this isolated port town of eccentrics and outcasts, booms with excitement, as pioneer dredgers rush to get out onto the water in custom built, barely seaworthy rigs. Because the precious metal isn’t found in the ground – it’s sitting on the bottom of the frigid, unpredictable Bering Sea. *Includes 1 x 60 Behind the Scenes and 1 x 60 Series 2 pre-show special.

**JUNGLE GOLD**

8 X 60

Determined gold miners from around the world seek their fortunes in the dangerous and gold-rich jungles of Ghana, Africa’s second largest gold producing country. With little money and everything on the line, American gold miners George Weatherly and Scott Lomu travel to the remote jungle of Ghana to find gold. But, the pressure is on right from the start to find gold in this treacherous environment. The stakes have never been higher. *Includes 1 x 60 Behind the Scenes special.
