HERE COMES HONEY BOO BOO
SERIES 1–2

Alana Thompson, aka Honey Boo Boo, has taken the pop culture world by storm. After just one appearance on Toddlers & Tiaras, the eight year old has become a viral video phenomenon, turned “go-go juice” into a trending topic on Twitter and caught the world’s attention with her sassy demeanour. Spend some quality family time with Alana, her parents, Mama June and Sugar Bear, and three older sisters as they kick off the summer in rural McIntyre, GA. With the kids out of school, the family is forced to spend every moment together...for better or for worse.

HERE COMES HONEY BOO BOO SPECIALS

Spend Halloween, Thanksgiving and Christmas with Honey Boo Boo! Can Mama June keep the Thanksgiving dinner within budget? Will Uncle Poodle get his head out of that pumpkin? Will the charity drive raise enough funds or will re-gifting represent the Christmas spirit this year?
Now in its fifth series, Through the Wormhole with Morgan Freeman returns to ask the questions only science can ponder: Is poverty genetic? When did time begin? Is luck real? Academy Award®-winning actor, Hollywood legend and space enthusiast, Morgan Freeman hosts and helps us understand the universe and our place in it.

See as never before the inner workings of our world, and explore megaflares, asteroids, megastorms and all the titanic forces that make us who we are. With a dynamic cast of experts and a new generation of CGI, How the Universe Works looks under the celestial hood to reveal the inner workings of outer space: the story of how it’s made and how it runs.
HOW IT’S MADE:

Join us as we go around the world to the birthplaces of your favourite cars. Each episode visits the factory and test lab, showing the step-by-step process of the design and build process.

BUILDING THE WORLD CUP

Building the World Cup goes behind the scenes of one of Brazil’s biggest engineering projects: the creation of three state-of-the-art football stadiums capable of hosting international soccer at the highest level.

MONSTERS INSIDE ME
SERIES 1–5

What happens when humans fall prey to parasites? Explore the shocking and sometimes deadly details of parasitic infection. Every episode is a life-or-death battle between modern medicine and evolution for the patients.

ALIEN ENCOUNTERS
SERIES 1–3

Via a hypothetical scenario depicting Earth’s first contact with alien intelligence, Alien Encounters continues to raise questions about the impact of alien contact with humans. Interspersed with the dramatisations, the series employs world-leading astronomers, futurists and scientists to provide expertise and lend context to the potential cultural, biological and technological impact of extra-terrestrial contact.
