The world’s most famous shipwreck. How did the RMS Titanic sink? This special examines the theory of magnetic storms and explores the connection scientists think led to the tragedy.

THE CRIME OF THE CENTURY
PRODUCED BY SKEIN PRODUCTIONS / 2013
1 X 60
A century after the assassination of President Abraham Lincoln, the murder of Charles Guiteau, the man convicted of the crime, remains a part of American history. This special takes us back to the scene of the grisly crime and examines the twists and turns that have kept historians and filmmakers engaged for generations.

CAN YOU LIVE FOREVER?
PRODUCED BY DANGEROUS FILMS LTD / 2011
1 X 60
What would it be like to be immortal? It’s the year 2967 and Adam Savage is 1,000 years old. He reflects on his long life, revealing how science in the 21st century transformed his body, creating a supercharged cyber-human, allowing him to live forever.

STEM CELL UNIVERSE WITH STEPHEN HAWKING
PRODUCED BY REVELATIONS ENTERTAINMENT / 2012
1 X 60
The topic of stem cells has been a matter of great debate. But what are stem cells and are they the key to our future or a ticking time bomb waiting to detonate? Led by a pioneer in the science world, Stephen Hawking, this special takes us on a journey into the subjects of stem cells, both embryonic and adult, to explore what these wondrous and baffling mechanisms are capable of.
