HARLEY AND THE DAVIDSONS [3x90]
A Harley-Davidson is more than a motorcycle. It is a symbol of Americana, built from the ground up by founders Walter and Arthur Davidson and their friend Bill Harley. But the road to success was not exactly smooth – filled with innumerable obstacles, ruthless competitors and extraordinary risks. Together these three young men gave everything they had to ensure the survival of the company they founded. A scripted series based on a true story, “Harley and the Davidsons” charts the birth of this iconic bike during a time of great social and technological change beginning at the turn of the 20th century.
