UNDERWATER PLANET [6x60]
Enter a world hidden beneath the surface of the oceans, seas, and inland waters as seen through the eyes of one of the most famous photographers who brought us, “Magic of the Big Blue.” Marvel at the largest biological ecosystem on Earth and enjoy six film stories presenting its complexity and diversity. See the world through the eyes of a seasoned diver and pioneering photographer. From the smallest inhabitants to underwater giants, from beautiful reefs to endless underwater deserts – witness the most beautiful and interesting locations of our “Underwater Planet.”
