6x60

WORLD'S BIGGEST SHIPBUILDERS | 6x60

2014 | PRODUCED BY WINDFALLS FILMS LTD. FOR SCIENCE CHANNEL

In *World's Biggest Shipbuilders*, a dedicated team of designers and engineers strive to build, test and launch three unique maritime machines, including a super tugboat, the world's largest jack-up oil rig and an ultra-efficient tanker.

Working under extreme conditions, and the tightest of deadlines, the teams toil to complete the three ground breaking builds; getting them ready to access and transport millions of barrels of oil, from the North Sea and beyond.
